

IMPORTANT MESSAGE FOR PARENTS

Dear parents/guardians,

The State of Connecticut has made it MANDATORY that all children in daycare, ages 6 to 59 months, receive the seasonal influenza vaccine yearly.

Contact your child's medical provider and schedule your child's vaccination as soon as possible. We will accept a complete updated immunization list or the bottom of this form. Please return no later than December 31st of this year. We must have documentation on hand at the center stating that your child has had the flu shot before December 31st or your child will not be allowed in the center until the flu shot is given. Thank you for your prompt attention and cooperation and if you have already handed in documentation of the flu, thank you so much. As always, if you have any questions, please let us know in the office.

Proof of Seasonal Influenza Vaccine Administration

Name of Child _____ Date of Birth _____

Date vaccine administered _____

Signature of medical providers administering vaccines

Name, address, and phone number of medical providers:
